## Marjorie's Menu

This menu and restaurant are in memory of a wonderful Grandma – Marjorie Evens.

While on the run from a violent husband, she took her two children to a logger's camp, not unlike this one, in the mountains of Victoria. It was there while cooking over an open fire for the men that she sustained horrendous burns to over 60% of her body.

She overcame this and many other adversaries to be an inspirational mother and the grandmother of your host Wendy.

She lived a life less travelled and this same spirit lives in the women who have come after her.

## Our Philosophy

Wellington Food and Wine operates as a 'slow food café', sourcing food, when possible, only from the Geopraphe region.

When it is not possible to source food from the region, we are committed to ensuring that goods are selected from organisations that source their food in a sustainable and socially responsible manner.

## Our Seasonal Menu

We change our menu in keeping with the Noongar Seasons

*Birak* – December and January, the first summer

*Bunuru* – February and March, the second summer

*Djeran* – April and May, autumn

*Makuru* – June and July, the first rains

*Djilba* – August and September, the second rains

*Kambarang* – October and November, the wildflower season

## Our Cottages

Build in the 1920's to house Forest Department employees who were managing the operations in the area. Today, these 8 cottages that sleep 8 people each, are the perfect place to relax, reconnect and rejuvenate.

The price is \$185 for one night or \$165 if you are staying more than one night – why don't you make a weekend of it
